Associates Program

Grow your experience, knowledge, and clientele! Our associates program is a 6 month immersive, paid program! You will be partnered with one of our master-experienced stylist; learning and working right alongside that stylist on their clientele. As you move along in the program you will earn up to 3 opportunity days to be behind the chair, and work on your own guests. This will give you the opportunity to start applying your advanced training behind your chair, as well as ensure when you graduate the program you will already have clients in your chair! Think of this program as your master's education!

Our Stylist Team

It's career time!

Let's continue growing and shaping your career as a stylist! At Salon Sapphire, we strive to grow each individual stylist in a way that will best suit their needs. Continuing your education and having a passion and desire for team and personal growth is something we value here. We realize each stylist is unique, and growth happens differently for each person, but as long as your willingness to achieve your goals and make progress, we support you every step of the way. We look forward to working with you!
